Randy – this sounds like a good plan to me.

Thank you!

Sarah

Hi Brian,

Thanks. We already have a call set up with MPCA on Thursday to discuss the USG modeling and use of CTDMPlus. MPCA was sent the same modeling protocol that we received in May. They could certainly send us any comments they have in advance but perhaps we have the call, and then determine what kind of correspondence makes sense, if any.

Randy

MPCA has comments on the USG modeling. I'm not sure what version they have. If we don't have those comments already, I suggest we solicit them from MPCA in the name of good state relations. I can ask for them by email, set up a call, Sarah can ask, or something else. What do you all think?
